Library Wing Proposal

Prepared for the town council, March 2026

The committee met on Tuesday to review the plan for the new library wing. Members agreed that the reading room should face the garden and keep its tall windows. A first estimate puts the cost at a little under two million, spread over three years.

Volunteers will catalogue the donated books before the move begins in spring. The children’s section gets its own entrance, with low shelves and a quiet corner. Questions about the schedule can be sent to the office at any time before the next meeting.
